PICVISA

Vasco Sousa

Picvisa,, Spain

Biography

Vasco Sousa is the PICVISA's International Sales representative.

Vasco's social skills, nurtured through his degree in Hotel Management, have greatly contributed to his role at PICVISA.

The glass recycling industry serves as his daily source of motivation, driving his commitment to fostering a more circular and better world.

Join PICVISA in 2022 has been a pivotal point in this journey, and he's genuinely pleased with the milestones we have achieved so far.

Currently, his roll in PICVISA is to find new projects and follow our International Clients Portfolio.

Vasco feels that he's also responsible for spreading the circular economy aim and make the planet Earth a better place to live.

Abstract

Picvisa is a technology-driven company specializing in advanced solutions that integrate robotics, artificial intelligence, and machine vision. We design and manufacture innovative equipment for the selection and classification of valuable materials, utilizing proprietary software to analyze composition, shape, and color. Our commitment to innovation drives the development of new products and the adoption of cutting-edge technologies. PICVISA serves both national and international markets, delivering comprehensive solutions in optical sorting, robotics, and AI. We are proud to be the first company in our sector to achieve B Corp certification, reflecting our dedication to sustainability and social responsibility.
